

Eilat-Eilot Summit 2018
December 2-4, 2018 | Eilat IL

8th Eilat-Eilot International Conference: Starting in 3 Days!

Brenmiller Energy building 90 MW/h storage power plant enabling 24/7 electricity

The company's storage technology brings renewable energy to the next level by enabling wide application as a substitute for conventional power plants. Brenmiller's storage is based on non-polluting natural resources and is very cost effective.

Mr. Avi Bernmiller, CEO and founder of the company, will speak about this technology and their various projects at the conference.

Those who registered for the professional tour (which is already full) will also see the company's demonstration facility on the pre-conference tour.

Roundtable meetings with Power Africa representatives

During the conference, a meeting will be held with the leaders of Power Africa, a US government initiative aiming to add 30,000 MW to 60 million people in Africa.

The organization works with governments and private companies, to support the implementation of energy projects in Africa.

The event is being held in collaboration with the Ministry of Economy, NewTech and the Export Institute. Entrance is by advance registration only. Interested companies are welcome to register at Aharoni@export.gov.il
